SOLUTION INFORMATION

Inception Date:	14 October 1999
Assets under management:	R1.0 bn
Target:	CPI + 6.5% p.a.
Regulation 28 compliant:	Yes

INVESTMENT DESCRIPTION AND OBJECTIVE

The solution aims to achieve maximum long-term growth in excess of inflation and targets returns of 6% to 7% above CPI per year (after fees) over rolling ten-year periods. It invests across asset classes, locally and globally, including listed shares, listed property, bonds and cash. Alternative assets, like hedge funds and unlisted assets, may also be included. Symmetry is responsible for asset allocation and allocates to specialist active asset managers and index-tracking mandates in each of the asset classes. The solution is suitable for investors with a long-term horizon who are comfortable with some volatility in returns as it has high exposure to growth assets (equities and property) and low exposure to defensive assets (bonds and cash). The solution is offered through a life policy.
