Investment description and objective

The solution aims to outperform the median of the AlexForbes Global Large Manager Watch (AFLMW). The underlying asset managers manage multi-asset class (balanced) mandates including listed shares, listed property, bonds and cash, both in South Africa and globally. The solution may also invest in alternative assets including, for example, hedge funds and private equity. The solution is suitable for investors with a long-term time horizon as it has high exposure to growth assets such as equities and property and low exposure to income-generating asset classes. The solution is offered to investors through a life policy.
