

# Symmetry Defensive

## Factsheet

31 March 2026

### SOLUTION INFORMATION

<b>Inception date:</b>	1 October 2002
<b>Assets under management:</b>	R861 461 628
<b>Target:</b>	CPI +3% p.a
<b>Regulation 28 compliant:</b>	Yes

### Investment description and objective

The solution seeks to grow capital in excess of inflation and aims to have no negative returns over 12-month rolling periods. It targets returns of 3% above CPI inflation per annum (after fees) over a period of 3 years or longer. The underlying asset managers invest across asset classes including listed shares, listed property, bonds and cash, both in South Africa and globally, with the dual aim of achieving real returns while limiting downside over 12 month periods. The solution may also invest in alternative assets, for example, including hedge funds. The solution is suitable for investors with a short to medium-term horizon who seek to minimise the potential for capital losses. The solution is offered to investors through a life policy.

### Total expense ratio (TER) and transaction costs (TC) (as at December 2025)

	Symmetry Defensive
Investment Management Charge (IMC)	0.85%
Performance Fee*	0.12%
<b>Total Expense Ratio (TER)</b>	<b>0.98%</b>
Transaction Costs (TC)**	0.04%
<b>Total Investment Charges (TIC)</b>	<b>1.02%</b>

\* Performance Fees are charged on alternative assets and assets held with external investment managers outside of the Old Mutual Group.  
 \*\* Transaction Costs are costs incurred in the buying and selling of the underlying assets.

### Investment manager allocation
