

CLASS A ACCUMULATION (SECTION 65)

FUND INFORMATION

RISK CATEGORY

A detailed description of the risk category for this Fund is disclosed in the Key Information Document which can be viewed via the following link: <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>

INVESTMENT OBJECTIVE:

- The investment objective of the Fund is to generate a long-term total return for investors. Over the long-term, the Fund aims to achieve a total return greater than the benchmark.
- The Fund is a Sub-Fund of the Russell Investment Company Plc, authorised by the Central Bank of Ireland as a UCITS (Undertaking for Collective Investment in Transferable Securities).
- The composition of Fund will be reviewed regularly and changed when appropriate and at all times in accordance with its investment objective.
- May invest up to 100% of its assets in collective investment schemes incl. ETF's within the meaning of required Regulations.

INVESTMENT UNIVERSE:

Actively managed and designed to provide exposure to primarily equities and equity related instruments (also including property and real estate related investments). Money market instruments can also be held in the Fund.

INVESTMENT STRATEGY:

The Principal Money Manager actively manages the Fund's allocation to the different asset classes and underlying CIS. In doing so the Principal Money Manager utilizes asset allocation, investment manager and investment strategy selection advice from the Investment Adviser. The Fund applies a quantitative and qualitative analysis investment strategy to identify eligible CIS and ETF for selection and allocation.

The geographical focus is worldwide - may invest across developed and/or emerging markets. It may invest instruments with specific industry, sector and theme focus without constraint. Up to 100% of the Fund's assets may be invested in CIS providing exposure to equity and property related classes.

The Fund may use specialist financial techniques (known as derivatives) to manage the Fund's exposures, to reduce risk, or to manage the Fund more efficiently.

Recommendation: this Fund is managed on a long-term basis (5-7 years' time horizon) and suited to investors wanting high long-term growth from their Global compliant investment, with appropriate levels of volatility.

We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.

- You should ideally see Collective investment schemes as a medium- to long-term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down.
- The company does not guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in this Minimum Disclosure Document (MDD) which can be requested from Symmetry.
- Additional information of the proposed investment, including the Fund's Prospectus, Key Information Document, subscription forms and annual or quarterly reports can be obtained from Symmetry.
- The cut-off time for instructions (buying and selling of units) is 11:00 Irish time each day on which Irish banks are open for business.
- Dividends are reinvested into the respective share classes for this fund.
- The Fund holds assets from countries outside of South Africa and therefore may have risks associated with liquidity repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement delays and the availability of information.
- Collective investment schemes are traded at ruling prices may borrow to fund client disinvestments and may engage in scrip lending. The daily ruling price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performances may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured.
- Old Mutual Unit Trust Managers (RF) (PTY) Ltd is the Local Manager registered in terms of the Collective Investment Schemes Control Act 45 of 2002 and a member of the Association for Savings & investment South Africa (ASISA).
- The Company has a right to close the portfolio to new investors in order to manage the portfolio more efficiently in accordance with its mandate.
